One of the most important things to have in your house during #COVID19 is a pulse oximeter. This device can help track your blood oxygen level—if it dips below 95, it's time to notify your doctor, and if it drops to 90 or below it's time to go to the emergency room.

super BOWL!! 🥗😋 recipe for this kale salad with apple, farro and lemon-maple vinaigrette is on my IGTV and so many of you asked about this mega wooden bowl I use all the time. I got it years ago at a home goods store in Portland, ME that has since closed 🏚

but I did some massive Google recon including uncovering someone's blog from 3 years ago where they talk about the same bowl!!! so I can officially tell you it is made in the Amazon in Peru by indigenous artisans who sustainably harvest and manage the forests they call home 🏡

One of the most important things to have in your house during COVID19 is a pulse oximeter. This device can help track your blood oxygen level. If it dips below 93, it's time to notify your doctor, and if it drops to 90 or below it's time to go to the emergency room

Last night, a man collapsed near me and my family after we arrived @EWRairport. I performed CPR with the help of a Newark Port Authority police officer and cleared the man's airway. Thankfully, the airport had a defibrillator nearby that we were able to use to save his life.

Last night, a man collapsed near me and my family after we arrived @EWRairport. I performed CPR with the help of a Newark Port Authority police officer and cleared the man's airway. Thankfully, the airport had a defibrillator nearby that we were able to use to save his life.

Last night, a man collapsed near me and my family after we arrived @EWRairport. I performed CPR with the help of a Newark Port Authority police officer and cleared the man's airway. Thankfully, the airport had a defibrillator nearby that we were able to use to save his life.

As a physician and a human being, it's our responsibility to jump in when there's a medical emergency. Another critical reminder of how important it is to take the time to learn how to do CPR and use a defibrillator.

Have you heard of food insecurity? It's when families lack the money to buy food that will help them live a healthier life.

Right now, the number of those who are "food insecure" is expected to surpass 50 million.

Desiree is working to break the stigma against this.

Vaccinated people in the U.S. no longer need to wear masks outdoors in small groups, when biking or running alone and when dining outside, the CDC said. nyti.ms/3sUjSWD

WHAT TO KNOW ABOUT THE NEW MASK GUIDANCE

Fully vaccinated people can engage in these outdoor activities without masks, the CDC said:

- Walking, running, hiking or biking alone or with members of your household
- Attending small outdoor gatherings with fully vaccinated family and friends

That's because younger people are being vaccinated at lower rates

This age gap is causing growing concern among healthcare professionals and bringing new calls to get younger people vaccinated.

First of all, we should automatically discredit any doctor who speak on this subject that still addresses it as a pandemic. It is an zoonotic virus which is an endemic. Come on man. It is just getting to the point the basics are even being missed by the "professionals"

I used to send blank checks for my gift recipients to fill in with their favorite charities, but then I found a much easier way through Charity Gift Cards that can be redeemed at virtually any charity in existence (specifically, more than 1.5 million registered in the US) (3/8)

Last year to help more people experience these unique gifts I partnered with [redacted], and others to give away $2 million in [redacted] cards to more than 30,000 people through the [redacted] campaign. (4/8)

Because this was such a hit last year I'm planning to offer 20,000 free $50 TisBest Charity Gift Cards again this year for people to donate to the charities of their choice. No strings attached. (6/8)

I want to run for Senate to address the major issues we face in America, and the prognosis is good. I feel more upbeat about America today than I have in a long time.

We've got to start seeing the divine spark in each other again.

I have spent the last 30 years in medicine empowering people to make decisions that best benefit themselves. Now I am taking those principles into politics and fighting to make sure that the American people feel empowered in the decision-making of our great nation.

Facebook, also recently known as @Meta put restrictions on my ad account…it has been over 24 hours, and they are still silent and won't explain why they are doing this.

Big Tech and the media will not silence me.
